

PAMES Is Environmentally Responsible

At PAMES, we believe being "responsible" means doing what is right. We will be participating in an innovative program called "COLORCYCLE" that converts old markers into energy as well as wax compounds for asphalt and roofing shingles. The process repurposes the entire marker! PAMES will also be participating in "The Crayon Initiative", this organization collects old crayons and melts them into new ones for sick children staying in hospitals. Together we can be more environmentally responsible and put smiles on children's faces. Please bring in your old markers and crayons to school for recycling!!!
